I am reaching out to you with a request for help because for almost six months, I have felt ignored by Dorset Police. I am a victim of both physical and psychological domestic violence. In November 2021, my then-partner attacked me without any reason, breaking my nose simply because I pointed out a minor medical issue where she was mistaken. Since she was studying nursing at that time, she felt that I had no right to point out her mistakes. I did not report the incident to the police at that time because I was simply ashamed, and until the end of our relationship, I hoped that things would improve.

However, my partner never stopped engaging in domestic violence. While the situations were not as severe as the initial attack, pushing and verbal abuse became almost daily occurrences. Additionally, domestic abuse included the control of my location using the Life 360 application. When I objected to this and uninstalled the app, my partner repeatedly sent me persistent invitations to install the application. I have evidence in the form of screenshots of these invitations. When I refused to install the application, my partner became aggressive. She also coerced her son into sending me invitations to the app on several occasions, and I have evidence of this in the form of screenshots.

Furthermore, my partner attempted to track my location by sending me an invitation to join the Microsoft Family Safety on March 18, 2023, and I have evidence of this in the form of emails.

One of the functions of this application is [...] Find you on map, when you have a compatible phone. [...]

At the request of my partner, I transferred my private phone number from Lycamobile to her Family Plan on the EE network. Since then, my partner has been monitoring my phone calls, sent and received messages and internet access. When I was disobedient towards her, she would disable the internet on my phone. This was very inconvenient due to the limitation of my contact with my daughters and family in Poland, as well as because I used this number for business purposes. After the incident on June 24, 2023, my ex-partner completely disabled my phone number. Only after the intervention of the court at the initial hearing was my number unblocked.

On June 24, 2023, my then-partner, driven by jealousy, called the police and made false statements accusing me of domestic violence. I was arrested and taken into custody. During the interview with Officer Rose Pratt, I presented the true version of events. Neither on the day of my arrest by the police nor at any time before did I engage in any form of physical or psychological violence against my partner. On the contrary, I was the victim of domestic violence.

Despite informing Officer Rose Pratt about the incident in which my partner broke my nose and despite my partner admitting to attacking me, as indicated in the police report, I was expelled from my home and my business. The police report I received states:

[...] The female party also disclosed that a while ago (possibly a year or more ago) the male had pushed her or kicked her in the stomach after she had hit him, but this was not reported. [...]

The statements made by my ex-partner to the police and the statements submitted to the court contain a series of lies. In subsequent statements regarding the incident in which my ex-partner broke my nose, she wrote:

[...] On one occasion, the Respondent showed me an old picture of his broken nose and jokingly suggested that I had caused his injury. However, in later argument, the Respondent accused me of having broken his nose, although this was a work-related injury. [...]

In another statement, she wrote:

[...] In 2021, the Respondent and I were arguing, and he left the house and returned later that night completely drunk with a nosebleed. [...] I have never seen the photos he claims to have taken, so I do not know what it looks like. [...]

My ex-partner not only lies about what really happened, but in one statement, she claims that I showed her pictures of my injuries, while in another, she states that she never saw any pictures. On June 24, 2023, when my ex-partner called the police, she said:

[...] Caller says they didn't as there was no domestic violence until now. [...]

However, in subsequent statements, she claims that she was strangled, kicked, and thrown against walls and the floor. In some statements, she alleges that she was grabbed by the neck and pushed into the door frame, while in others, she asserts that she was pushed in the chest and struck against the wall.

[...] he grabbed a hold of me in a vice-like grip and pushed me forcefully against the wall. Consequently, my body slammed against the ground [...]

Did the police or a doctor conduct an examination of my ex-partner to investigate if there are any signs of such an attack? Please review the attached document to the email, which shows many more falsehoods in her statements.

Up to the present day, Officer Rose Pratt or her colleagues have not spoken to any of our neighbours. On the day my then-partner called the police, the weather was hot, and most of our neighbours had their windows and doors open, making any altercations potentially audible to one of them. This could confirm my innocence and reflects the incompetence of the police.

Officer Simon Shaw #1720 lies in his report by stating:

[...] The suspect previously ignored Police advice to leave the property and not return. [...]

The police officer who arrived for the initial intervention suggested that I take an hour-long bike ride to give my then-partner some time to calm down. In the police report, it is stated:

[...] At this time, based on what has been said, there was no lawful power to prevent the male party from returning to the address. [...]

Officer Sarah Dutton #1985 lies in her report by stating:

[...] Suspect was arrested yesterday - occ 55230098162 relates - whereby he had pushed his ex-partner after a verbal DA earlier in the evening. [...]

Other police officers and individuals with access to the records, after reading these reports, may conclude that I really attacked my then-partner, which is a blatant lie. On July 9, 2023, I officially filed a phone report with the police regarding the incident in which my ex-partner attacked me and broke my nose (Officer dealing: 0482). However, I was completely trivialized and ignored. In October 2023, feeling helpless due to the lack of response and being ignored by the police, I sought help from a friend of my ex-partner. After reading her statements, she informed me that after the November 2021 incident, my ex-partner called her and told her that in a fit of rage, she attacked me and broke my nose. On October 17, 2023, I filed an online report with the police (TAA-83860-23-5555-01) informing them that I have a witness to the events in November 2023. However, once again, the police took no steps towards punishing the perpetrator. Officer Emma Chubb PC817 has not contacted the witness to this day, despite providing the witness's phone number in the online report.

On December 8, 2023, at the request of Officer Rose Pratt, I was to appear at the police station in Poole regarding my Bail. Therefore, I took a day off work and went to the police station. However, on the spot, I was informed by the duty officer that my Bail had been extended until January 20, 2023. When I asked why I was not informed earlier, the duty officer told me that an email had been sent to me regarding this matter. Officer Rose Pratt did not call me to inform me about it, nor did she leave a voicemail. Upon checking my emails, it turned out that Officer Rose Pratt sent the email on the SAME DAY – December 8, 2023, at 8:20 AM. Furthermore, my Bail in January will last for over six months, and according to the law, it should be signed by the Superintendent. However, the document I received bears the signature of only Officer Rose Pratt and Sergeant S Boston #1783. I would like to obtain information about which Superintendent signed the extension of my Bail.

After being ejected from my home by the police, I lost access to my business, suffered a loss of income from Phones Rescue, and due to the lack of revenue for six months, I am unable to repay the business loan I took. My three daughters are experiencing hardship as I struggle to meet child maintenance payments.

The main responsibility for the entire situation lies with my ex-partner, who fabricated lies about me, destroying my life, ruining my company, and affecting the lives of my daughters. However, the blame also falls on Officer Rose Pratt and other officers involved in this investigation. Without the involvement and assistance of the police, my ex-partner would not have been able to demolish my life and destroy my business. The combination of a liar making false accusations and an incompetent police force is a very dangerous weapon, which can destroy the lives of many innocent people.

Given the above facts, police negligence, and the disregard for my reports, I request the disciplinary dismissal of Officer Rose Pratt and the suspension without pay for six months, with no salary, for officers who lied about me in official police reports and ignored my formal complaints. I believe it is fair because due to the negligence of the police, I have been deprived of income from my business for at least six months, and now I am facing the possibility of bankruptcy.

- Sarah Dutton #1985

- Simon Shaw #1720

- Officer dealing: #0482

- Emma Chubb #817

In this entire matter, I am not only innocent, but I am also a victim of both psychological and physical domestic violence. The way I have been treated by the police is unacceptable to me. Therefore, I appeal to you for help and to the representatives of the press to bring attention to this case. There should be no place in the police force for individuals like Rose Pratt and other officers who break and bend the law, abusing their power and authority. I founded Phones Rescue in 2018 at the cost of many sacrifices and months of hard work. Due to the lies of my ex-partner and the negligence of the police, my company is on the brink of bankruptcy.

Sincerely,

Andrzej Majewski
